

Project Initialization and Planning Phase

Date	07 JUNE 2026
Team ID	xxxxxx
Project Name	EduGenie Google Gemini Powered Learning Assistant
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	A student preparing for exams	Learn difficult concepts quickly and accurately	I find it hard to understand lengthy study materials	Most resources use complex language and are time-consuming	Confused and less confident about my exam preparation
PS-2	A learner studying a new topic	Practice with quizzes and assess my knowledge	I don't have instant quizzes based on my study topic	Creating practice questions manually takes too much time	Unprepared and worried about my performance
PS-3	A student with limited study time	Get summarized notes and a personalized learning roadmap	I spend too much time searching through multiple websites and resources	Study materials are scattered and not personalized to my learning needs	Stressed and overwhelmed while completing my syllabus
