| <b>Maximum Marks</b> | 4 Marks                                           |

### Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

|                                                                                                                                                                                                                                                                    |                                                                                                                                                                                                                                                                               |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>SAYS</b> <ul style="list-style-type: none"> <li>• “I need quick and easy explanations for difficult topics.”</li> <li>• “I don’t have enough time to read lengthy study materials.”</li> <li>• “I wish I could get quizzes and summaries instantly.”</li> </ul> | <b>THINKS</b> <ul style="list-style-type: none"> <li>• “Will this explanation be easy enough to understand?”</li> <li>• “I hope I can complete my syllabus before the exams.”</li> <li>• “I need one platform that can explain, summarize, and test my knowledge.”</li> </ul> |
| <b>PERSONA NAME</b><br><br><b>JOSEFH</b><br><br><b>Student/Learner</b>                                                                                                                                                                                             |                                                                                                                                                                                                                                                                               |
| <b>DOES</b> <ul style="list-style-type: none"> <li>• Searches for study material on Google and YouTube.</li> <li>• Reads notes and asks AI for explanations.</li> <li>• Practices quizzes and review summaries before exams.</li> </ul>                            | <b>FEELS</b> <ul style="list-style-type: none"> <li>• Confused when concepts are difficult.</li> <li>• Stressed due to limited study time.</li> <li>• Confident and motivated after receiving clear explanations and personalized quizzes.</li> </ul>                         |
